

Zervas Architects has been Northwest Washington's Design Leader since 1961 and is looking for a Senior Interior Designer to join our team. As design leaders in a rapidly growing region, Zervas advocates urban concentration where infrastructure exists, planning that preserves our natural resources and design that adds to the community experience as the best way to achieve responsible and inspiring growth.

Job Description

We are seeking a highly motivated and talented Senior Interior Designer to join our team. The ideal candidate will possess a keen eye for detail, a passion for design, and a deep understanding of spatial aesthetics. As a Senior Interior Designer, you'll be responsible for conceptualizing, developing, and executing interior design solutions that harmonize with our architectural vision and meet our clients' needs.

Responsibilities

- Be responsible for generating and developing design ideas with the design team
- Manage and mentor team members from concept design through construction administration
- Maintain relationships with clients and consultants
- Aid in collecting information for client assessment (attend interviews, provide documentation support)
- Review work for design integrity, accuracy, clarity and quality
- Assist in the development of interior concepts based on client vision, project scope, and architectural concept
- Coordinate with consultants, furniture dealers, product reps and fabricators to meet project objectives
- Maintain furniture, fixtures and equipment (FF&E) databases, specifications and performance metrics
- Assist with review of RFIs and submittals during Construction Administration
- Participate in team meetings to discuss project and technical issues

Qualifications

- Accredited professional degree in Interior Design, Architecture or related field; equivalent experience may be substituted
- NCIDQ certification is preferred and 6+ years of related experience
- LEED or WELL accreditation are preferred or willingness to be certified in one of these areas.
- Detailing and execution of construction documents with minimal supervision
- Proficient modeling with and leading projects in Revit and/or AutoCAD
- Proficient 3D rendering abilities in Revit, 3dMax, and/or Enscape
- Proficient with the MS Office and Adobe Creative Suite
- Experience with complex multi-phased public, education, healthcare, and/or corporate projects, is desired

Knowledge, Skills and Abilities

- Have a passion for planning, materiality, detailing and furnishings
- Working knowledge of the application of color, range of design principles, materials and aesthetics
- Familiarity with space planning methodology
- Familiarity with furnishings and finishes
- Sketching and rendering skills
- Working knowledge of design phases and procedures
- Ability to communicate in a clear, concise and professional manner both verbally and in writing

Benefits

- 401K with company match
- Medical & Vision Insurance, with company contributions to HSA Account
- (80) Hours Paid Vacation
- (6) Paid Holidays
- (52) Hours Paid Sick Leave
- Continuing Education
